

Make a storybag

Any bag can be used as story bag. In this no sew tutorial a cotton shopping bag is converted into a drawstring storybag which you and your child can decorate.

MATERIALS

1) Cut off the bag straps.

2) Use the bag straps for drawstring.

3) Make a hole in the top seam on each side of the bag for the draw strings.

4) Attach a safety pin to a strap and feed it through the holes. Repeat on the other side.

5) Knot the two straps together and pull. Use paint or pieces of fabric to decorate the story bag.
